Accumulating knowledge to achieve sustainable success with AI

Open-source think tank focused on AI at scale

HOLISTIC APPROACH FOR ENTERPRISE-WIDE AI USAGE

At Engage-Meta, we specialize in empowering enterprises to successfully implement AI and data solutions at scale through a refined, strategic framework built on three core pillars:

- **TRAIDA** — IT architecture for the implementation of AI systems, NoCode, and data solutions based on the TRAIDA framework (Transformative AI and Data solutions).
- **AI KNOWLEDGE** — Knowledge management for training AI systems.
- **MINDSET** — Promote the positive use of AI systems.

A fourth sphere complements the system to address financial aspects.

The practices of these spheres are universal and adapt according to the company's context.

Drinkizz is a member of the Engage-Meta community for AI and enterprise-scale data management

**Pierre Bonnet**

Founder of Engage-Meta, expert in Data Management and AI at scale, entrepreneur

**Vinci Savitri Dzoulou**

Expert in NoCode and AI, Chief Digital Officer (CDO) & IT Consultant

**Tyna Huynh**

Expert in Organics and wellbeing life style, entrepreneur in foods and beverage, business evangelist in NoCode and AI

**Hoang Minh Son**

With 19 years of experience, Mr. Hoang Minh Son is an expert in research and development (R&D), governance, (management, leadership), sales, BIM (building information modeling) and construction (bridges, roads and civil works)

**Nguyen Thanh Duong**

With 28 years of experience in IT as a consultant, designer, engineering, and software provider, I have participated in the development of nationwide e-government solutions

**Nguyen Xuan Hoai**

With nearly 30 years of experience, a leading expert in AI and Data Analytics with extensive experience in evolutionary computation, machine learning, and genetic programming

**Phi Ang Tuan**

Expert in EA — ERP — BPM. I took part in build-up Digital Transformation Strategy, IT Master Plan and implemented the computerization program management for large enterprises

## THE EXPERTS IN CHARGE OF THE OFFERINGS

<https://engage-meta.com/services/>

RECOMMENDED PATH

4 weeks

CODE: 004 - PRACTICAL

NoCODE & AI EDUCATIONAL STARTER PACK

You'll achieve your first workflow automation using a NoCode database (Knack) and AI. Additionally, we'll provide you with the methodology and prompts to build a knowledge graph database

1 week

CODE: 001 - VISIONARY

DISCOVERY OF IT TRANSFORMATION WITH AI & DATA

Our senior expert will present the strategic challenges of AI and review with you the outcomes of the previous starter pack, including the financial analysis toward your target (budget, ROI, etc.). A work plan will then be established to design your technical architecture, which will be the focus of the next session

2 months

CODE: 002 - VISIONARY

DESIGN YOUR IT ARCHITECTURE FOR AI

The IT file outlines the solution choices tailored to your context, along with a roadmap for implementation. Depending on your situation, this may involve a fully SaaS-based NoCode approach, a LowCode solution. The following topics are covered: business, logical, technical, and physical architecture; methodology and governance; impact on required skill profiles and training; CAPEX, OPEX, ROI, implementation roadmap

TOTAL: 6 DAYS

STRATEGIC IMMERSION (1 DAY)  
KNOWLEDGE GRAPH DISCOVERY (2H)  
IMPLEMENTATION (5 DAYS)

PRICE: USD 3,500 *price excluding tax*

TOTAL: 1 DAY

TRAIDA MASTER CLASS (0,5 DAY)  
TRAIDA WORKSHOP (0,5 DAY)

PRICE: USD 1,000 *price excluding tax*

TOTAL: 15 DAYS

COMPLETE TECHNICAL ARCHITECTURE  
DOCUMENT WITH FINANCING AND  
ORGANIZATION

PRICE: USD 15,000 *price excluding tax*

Discover NoCode and AI in a hands-on way

PRACTICAL

TOTAL: 6 DAYS

STRATEGIC IMMERSION (1 DAY)  
KNOWLEDGE GRAPH DISCOVERY (2H)  
IMPLEMENTATION (5 DAYS)

PRICE: USD 3,500 *price excluding tax*

Unlock the power of AI and NoCode with the NoCode & AI Educational Starter Pack — a results-driven offer that begins with an immersive experience to align your team, clarify priorities, and set the stage for seamless implementation. Start with a focused strategic Immersion Session, a 1-day where your teams dive into key NoCode & AI concepts, responsible usage, and business-aligned opportunities. Then, move into a 5-day First Implementation where our experts guide your team through feasibility analysis, data modeling, secure deployment, and post-implementation support (Knack DB, up to 10 tables)

### 3. INTRODUCTION TO NO-CODE TOOLS

With no-code and AI, we were able to set up systems to support:

Online sales

Customer support

Data management

Email marketing

Website + Vlog

Data modeling assistance and text marketing checking

Data backup

Data analysis

Data ingestion

The 2h Knowledge Graph (KG) introduces teams to a proven methodology for structuring and leveraging business knowledge using semantic graphs. It is conducted in four phases: (1) Assess Business Use Cases; (2) Meet Relevant People to Collect Data and Knowledge that the graph must process; (3) Glossary and Ontology modeling assisted by AI; and (4) KG Deployment and Exploration in a business context.

SEE THE STANDARD INTERVENTION SCHEDULE PRESENTATION ON THE NEXT PAGE

Discover NoCode and AI in a hands-on way

Stage	Time range	Objective of the task		Workload for our consultants (man-day)	Estimated workload for your teams (man-day)	Collaboration mode		Mode of intervention		Planning				
						With a broader audience	With your project team	On-Site	Remote	Week 01	Week 02	Week 03	Week 04	Week 05
Before starting the starter pack	Depending on your context	NoCode-AI Starter Pack - Requirements Collection	Send the starter pack requirements collection document to the client to define the use case.	-	Depending on your context	-	X	-	X					
			Receive and understand the customer's use case based on clear specifications and workflows	2 days	-	-	X	-	X					
			Confirm understanding of the client's use case and share this understanding from an online/offline meeting	0.5 day	0.5 day	-	X	X	X					
Context awareness	DAY #1	Strategic immersion	Align your team on AI and NoCode strategic opportunities with a focused immersion session that introduces a structured, AI-assisted methodology to understand AI's value and impact.	1 day	1 day	X	X	X	X					
			Discussion step to confirm the use case before implementation											
		Knowledge graph (KG) introduction	A 2-hour overview of how semantic graphs can help structure and leverage business knowledge based on Drinkizz use case. We will cover business concept glossary design, business concept taxonomy design, and ontology modeling with AI assistance.											
Implementation	DAY #2	Creating AI assistants to support businesses	Identify and structure key business objects based on your business documents. These business objects will serve as the foundation for modeling and prototyping within the scope of your use case.	1 day	1 day	-	X	X	-					
		NoCode database and automation workflow design	Design the data model and automation workflow based on the client use case.											
	DAY #3	Use case implementation (database + automation)	Build your first functional NoCode database application using Knack from the selected use case, including up to 10 tables and 5 automations, with a secure deployment guided by experts to ensure proper architecture and usability.	1 day	1 day	-	X	X	-					
	DAY #4	Use case testing (database + automation)	The client tests the implemented use case and provides feedback	1 day	1 day	-	X	-	X					
	DAY #5	Implementation improvement iteration	Implementation improvement iteration with a maximum of 3 iterations	1 day	1 day	-	X	-	X					
	DAY #6	Knowledge Transfer, Documentation & Support	Ensure knowledge transfer and team autonomy through hands-on support, comprehensive documentation, and targeted training so your team can independently manage and evolve the solution	1 day	1 day	X	X	-	X

PLEASE FEEL FREE TO DISCUSS IT WITH US SO WE CAN OPTIMIZE OUR SUPPORT FOR YOUR ORGANIZATION

*Based on the Transformative AI and Data Solutions (TRAIDA) framework of the Engage-Meta community*

ENGAGE  
META

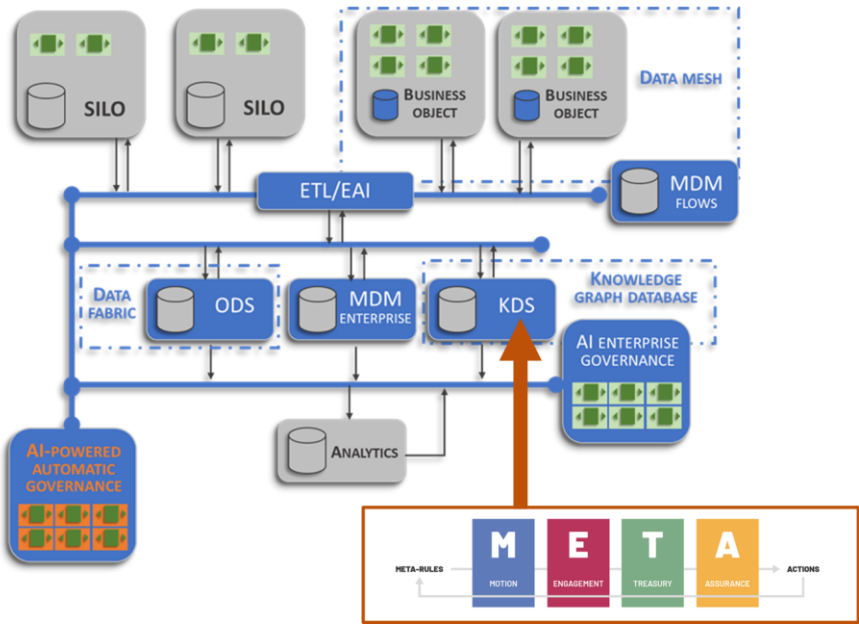

VISIONARY

**TOTAL: 1 DAY**

**TRAIDA MASTER CLASS (0,5 DAY)**  
**TRAIDA WORKSHOP (0,5 DAY)**

**PRICE: USD 1,000** *price excluding tax*

The integration of AI at the enterprise level requires a thorough understanding of the necessary data architecture. From structured data management to knowledge bases (graphs), it is essential to grasp the architecture and anticipate the best practices to implement. The technical, governance, and business impact domains are addressed through the cards of the TRAIDA framework (Transformative AI and Data Solutions) from the Engage-Meta community (over 50 cards). The half-day masterclass provides a comprehensive overview of AI and data architecture for scaling within the enterprise, while the half-day workshop allows you to apply best practices to your specific business context

# DESIGN YOUR IT ARCHITECTURE FOR AI

*Drafting your complete technical architecture document based on the expertise of the Engage-Meta community*

**TOTAL: 15 DAYS**

**COMPLETE TECHNICAL ARCHITECTURE  
DOCUMENT WITH FINANCING AND  
ORGANIZATION**

**PRICE: USD 15,000** *price excluding tax*

This comprehensive offering supports you in drafting your technical architecture document for AI-driven transformation and data management within your company. Over approximately three months, with a workload of 15 days, we collaborate with your teams to design two NoCode - AI technical scenarios, including financial estimates and the necessary organizational structure. CAPEX, OPEX, ROI, and break-even are identified based on the strategic objectives of your transformation plan. Contact us for more details on the content of this report, which provides a 360-degree vision of AI and data transformation at the enterprise level

## ADDITIONAL PACKS

*Based on the entrepreneurial and intrapreneurial experience of the Engage-Meta community*

ENGAGE  
META

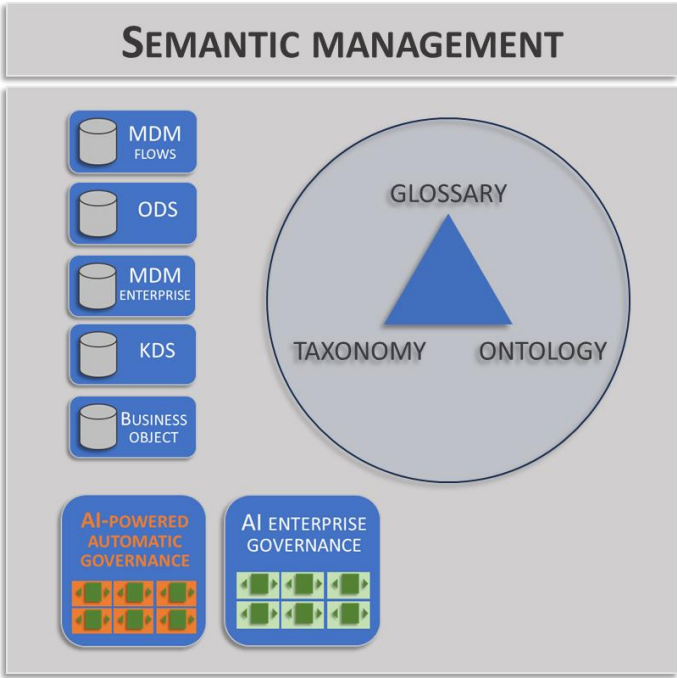

VISIONARY

**TOTAL: 1 DAY**

**META MASTER CLASS (0,5 DAY)**  
**META WORKSHOP (0,5 DAY)**

**PRICE: USD 1,000** *price excluding tax*

The engagement of your teams in understanding the impact of AI on work methods and employability is fundamental to the success of your transformation. During this half-day masterclass, followed by a half-day workshop, the impacts of AI will be presented and discussed within your specific context. You will discover that knowledge management, critical thinking, and an entrepreneurial (or intrapreneurial) mindset are key success factors that should not be overlooked

## Your first implementation of a complete data model in NoCode

# PRACTICAL

## TOTAL: 5 DAYS

# BUSINESS GLOSSARY

## DATA MODELING AND UI IMPLEMENTATION

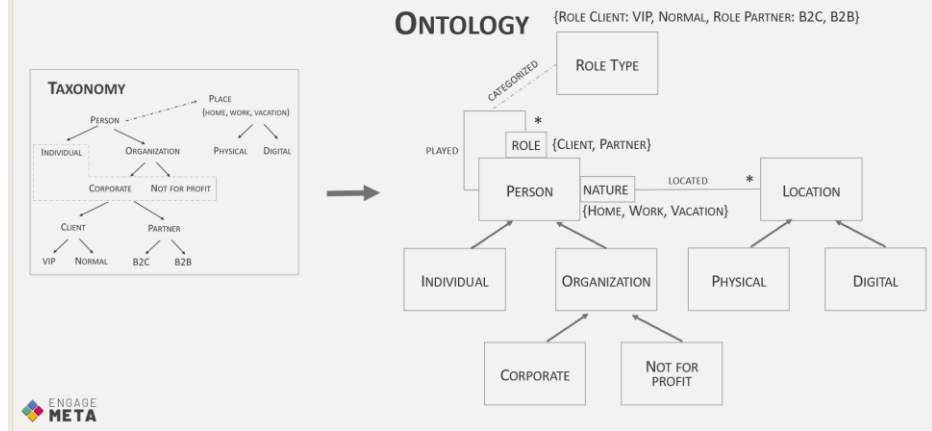

### MIGRATION BEST-PRACTICE

**PRICE: USD 2,500**

*price excluding tax*

Accelerate your data strategy with our NoCode Data Domain Implementation offer, a structured five-day program designed to help organizations seamlessly build a data domain using Knack NoCode Database. Start by defining 30 to 40 key business objects (glossary) (Day 1) to ensure clarity and alignment with business goals. Then, develop a robust data model (Day 2) featuring 30 tables, 20 relationships, 5 user roles, and 5 workflow automations tailored to your needs. On Day 3, bring your database to life with a custom UI/UX designed for optimal user experience. Day 4 focuses on data migration best practices, providing expert guidance on efficiently transferring up to three tables from Knack to Mendix. Finally, Day 5 ensures a smooth transition with hands-on training and comprehensive documentation, empowering your team for independent management.

## BUSINESS CONCEPTS DESIGN

Learn how to communicate effectively with AI and create your own professional assistants

Drink izz  
Kiss your energy

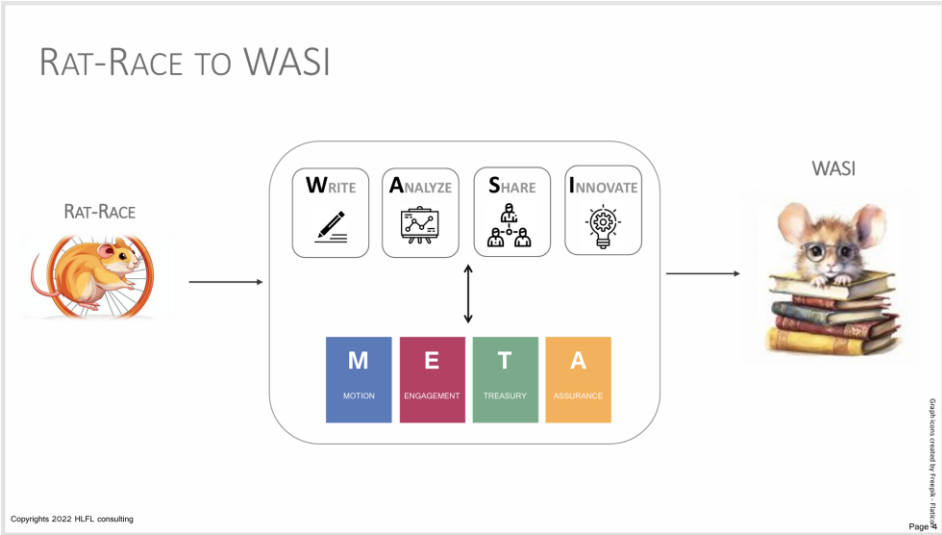

**PRACTICAL**

**TOTAL: 1 DAY**

**PROMPTS PRACTICES AND CHATGPT USE**  
**AI ASSISTANT MANAGEMENT**  
**WASI SKILL SET: WRITE-ANALYSE-SHARE-INNOVATE**

**PRICE: USD 1,000** *price excluding tax*

Master your AI Assistant is a structured training offer designed to equip you with the skills to create, manage, and optimize AI assistants effectively. This offer covers prompting best practices, teaching you how to structure prompts using role definition, context, critical thinking, ... for more accurate and relevant AI responses. You will gain practical knowledge of ChatGPT's key features, including sessions, projects, knowledge base, security, and memory management to ensure responsible AI usage. The program also introduces knowledge management with the WASI framework (Write, Analyze, Share, Innovate) to streamline information flow. Additionally, you'll explore AI assistant management, learning strategies for versioning, sharing, and securing AI assistants within your organization. The training concludes with a hands-on exercise, allowing you to apply these concepts to real-world use cases

Izz\_The Drinkizz Virtual Advisor

Hi! I am Izz, the Drinkizz Virtual Advisor. How may I help you now?

What is microcondria?

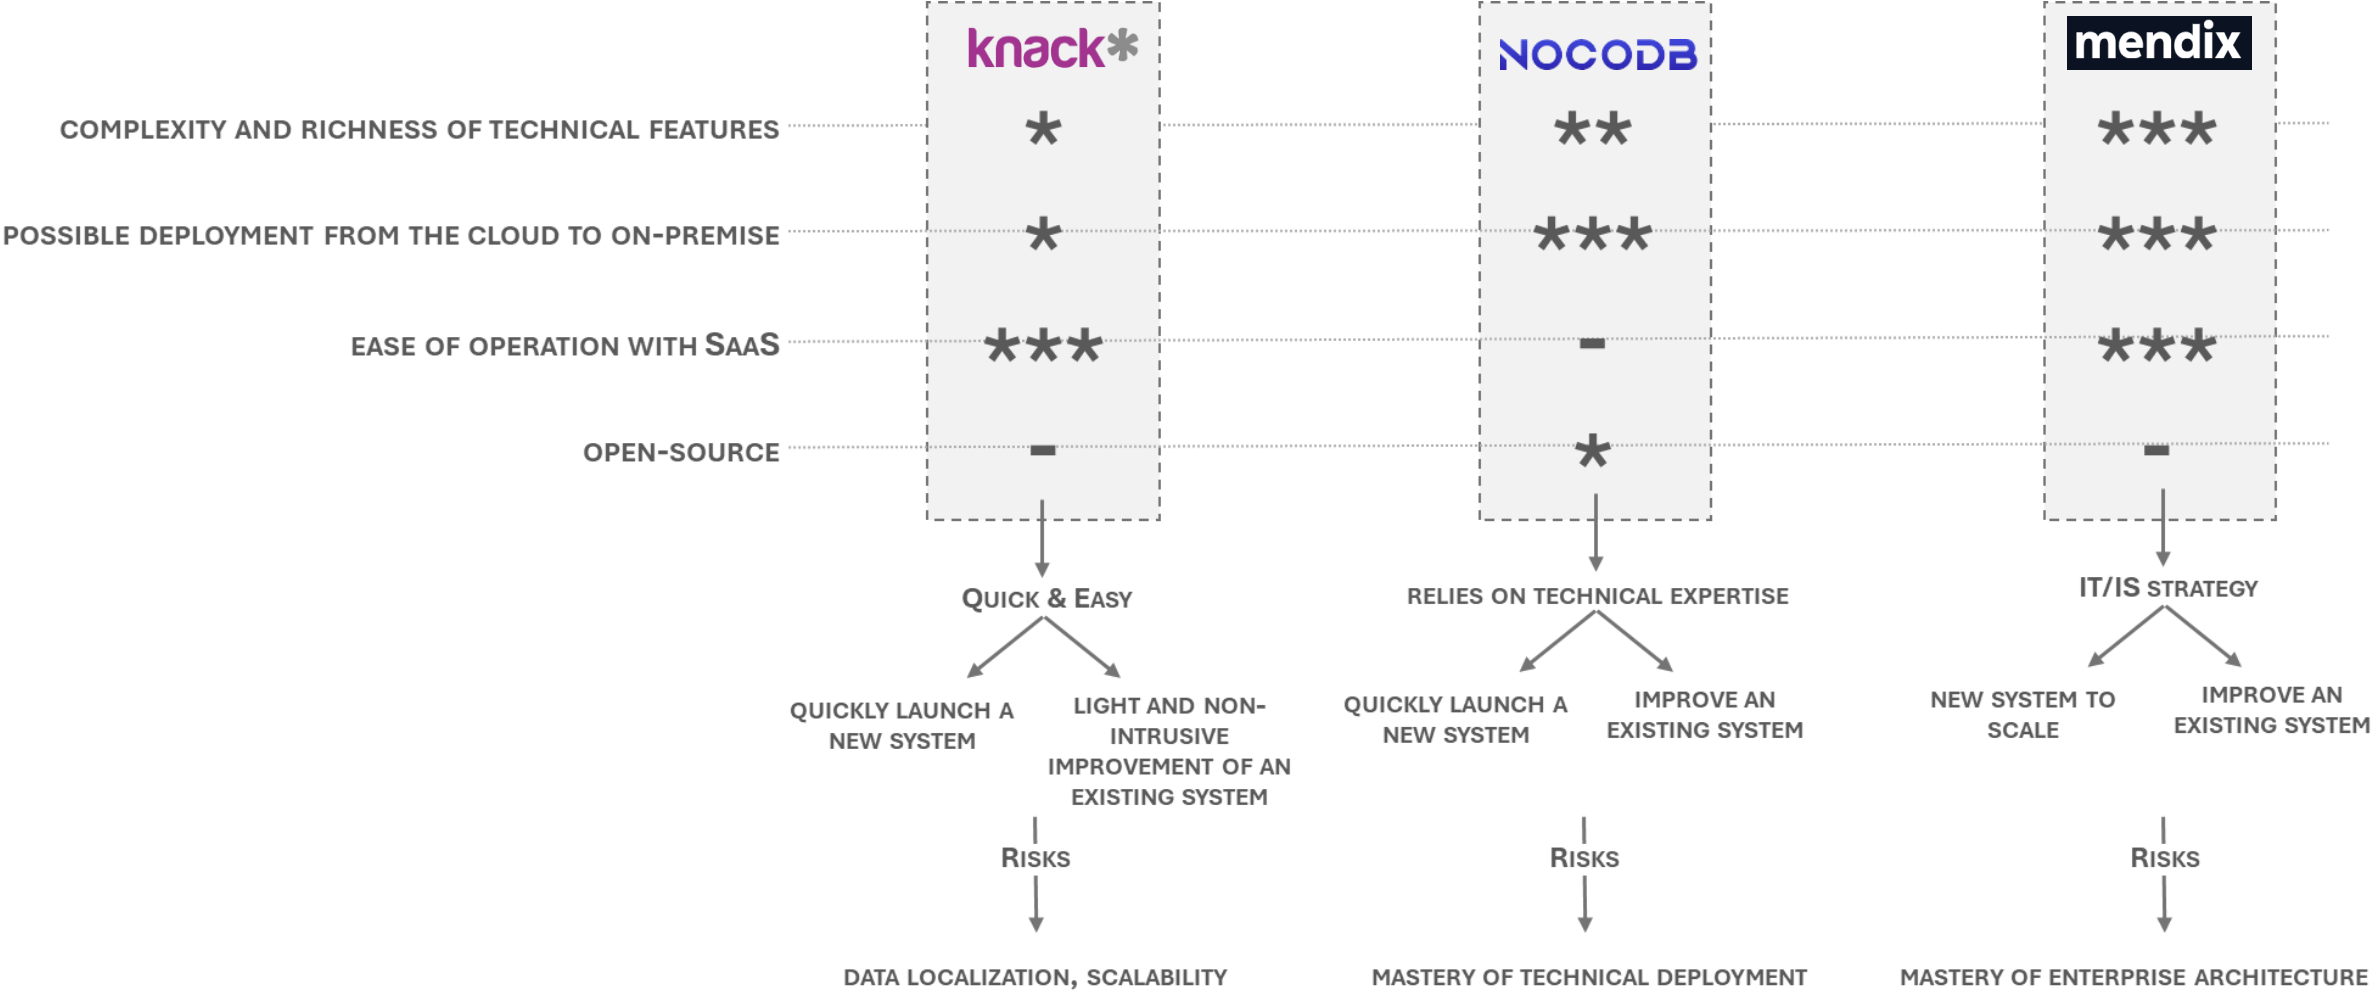

Mitochondria are small organelles within your cells, often referred to as the cell's energy factory or power-house. They are descendants of ancient bacteria that evolved endosymbiotically over 2 billion years ago. Mitochondria play a central role in your body's metabolism by converting energy from food into ATP, the energy currency of cells. They also help in the metabolism of immune cells, signaling and hormone balance, and have antiviral properties. Healthy mitochondria are essential for preventing energy deficiency, aging, and
